

EASY VICTORY FOR LOCAL TEAM

High School Basket Ball Team Brings Home Honors From Antigo

The Rhinelander quintette, accompanied by almost a hundred rooters, went to Antigo last Saturday, and for the first time in the history of the school, defeated them on their own floor by a score of 18-3.

The evening's preliminary was played between the second teams of the two schools, and resulted in a 15-2 victory for Rhinelander. Until the last few minutes of play, a shut out seemed probable, but Antigo succeeded in making a basket shortly before the final whistle blew. The preliminary was interesting and showed good training.

The Rhinelander line-up: B. Squier, C. W. Dayton, G. H. Lewis, F. D. Cain, F. N. McEachin, F. D. Bennett, Sub.

The game was refereed by Chas. Chafee; four fouls were called, and but one free throw was scored.

The big game opened with a rush and Rhinelander succeeded in getting two baskets almost at once. The game was marked by good team work by the visitors, very clever intercepting by the home boys, and intense enthusiasm among the crowd. Antigo's weakness lay in her inability to find the basket, and several good shots were missed. It is difficult to make individual mention where all did well, but Reuben Cain's handling of his opponent was particularly noticeable.

The game was very satisfactorily refereed by Yahr of Antigo, umpire, Chafee of Rhinelander. The lineup:

R. H. S.	A. H. S.
A. Danielson	R. G. Weaver
W. McRae	L. G. Wall
A. Frognier	O. McClellan
R. Cain	R. F. Kingsbury
Z. Strope	L. G. Coach
R. White	Subs.
D. Arnold	

Field goals, McClellan 1, Wall 2, Kingsbury 1, Frognier 3, Cain 3, McRae 3, Fouls, Wall 1, Coach 1, McClellan 1, Danielson 2, Cain 2, McRae 1. No free throws were made.

No account of the game would be complete without mention of the courteous and friendly treatment which was accorded the team and crowd by Antigo. We shall be glad to show our appreciation of this kind upon their return visit to us which occurs on Friday of this week. The boys would be glad to have a large crowd out on that evening to see the excellent game which both the first and second teams expect to put up.

WILL NOW ADD EXTRA TAX FEE

The time as fixed by the common council when taxes could be paid the city treasurer without an additional two per cent collection fee added, expired Saturday, and from now until the turning over of the tax roll to the county about the middle of March, the increased collection fee will be enforced.

City Treasurer A. D. Sutton says that up to the present time the amount of taxes paid exceeds that of previous years at the same date. In a great majority of cases taxes are higher than they were last year.

REMITTS STATE TAX

P. J. Cain, county treasurer, on Saturday made remittance of Oneida county's share of the state tax to the state treasurer at Madison. The total amount of tax for this county was \$32,761.18, less school money, \$11,603.20, the exact amount sent in being \$21,157.98. The county's share of the state tax for 1913 was \$41,816.88.

NO STATE CENSUS TAKEN IN 1915

This year, for the first time since 1855, no state census will be taken in Wisconsin.

Beginning half a century ago, every ten years, the state, under the direction of the secretary of state, has made an enumeration of the inhabitants of Wisconsin and ascertained other facts in regard to farm acreage, dairying and militia strength. On this census every ten years a reapportionment of the legislative districts was made by constitutional provision.

In 1905 and again in 1907 the people of the state and the legislature gave indorsement to a measure, article 4 of the section providing for the state census and the redistricting of the state was annulled. This is the first census year under the new constitutional provision in which no census will be taken.

The state census was abolished for the reason that the reapportionment based thereon could be in effect only during two elections, because of biennial sessions of the legislature, the federal census taken every ten years, also necessitating a complete rearrangement of the congressional, assembly and senatorial districts.

THE WHEELS OF JUSTICE

Peter Rasmussen was brought before Judge Smith in municipal court, Thursday on a charge of non-support, and entered a plea of not guilty. He was ordered by the court to pay \$10 on or before the 20th day of each month to his wife.

Tuesday, Clarence Vaughan was brought before Judge Smith charged with having pointed a gun at Thos. Turges, to which charge he entered a plea of not guilty, whereupon the case was adjourned until March 6, bonds for his appearance at that time being placed at \$500.

Dave Perry entered a not guilty plea to a charge of larceny from his person Tuesday and his case was adjourned until Saturday of this week. Bonds were placed at \$500, in default of which he was committed to jail.

LONG WALK FOR REVENUE STAMP

H. Stadler, a settler living near Newbold station on the Northwestern road, last week had the company set out a car for him to load with wood for shipment to this city. After getting the same loaded he was notified by the conductor of the freight train that he must have a one cent revenue stamp to attach to the freight bill and cancel, so it was necessary for him to come to Rhinelander to obtain one, which he did, walking the distance before breakfast Friday morning. It goes without saying that he does not think much of this new stamp act.

ATTRACTIVE ANNUAL

The Wisconsin Memorial Day Annual for 1915, compiled by O. S. Rice, state library clerk and issued by C. P. Cary, state superintendent, forming a volume of 100 pages, has been sent out to the various counties of the state. Patriotic music, songs, poems and addresses as well as brief sketches of the lives and deeds of military heroes fill the pages of the book. A cover in a three-color design, in which the stars and stripes appear as the central figure, is used in all making a very attractive annual.

CIRCUIT COURT OPENS MONDAY

Large Number of Cases On the Calendar—Murder Case for Trial

The March term of circuit court for Oneida county will convene at the court house on Monday afternoon, Judge A. H. Reid presiding.

The calendar contains six criminal cases, but two of these, State vs. John Goldie and State vs. E. D. Ryan will not be tried as the prisoners recently broke jail and have not been apprehended thus far. Goldie was charged with larceny from the person, and a charge of forgery is pending against Ryan.

The most important criminal case is that of Joseph Soenowski, charged with the murder of one Frank Morrell, a woodsman, on the highway between Woodruff and Minocqua the early part of the winter. The prisoner was arrested some days later in Chicago. He has retained Kreutzler, Bard, Rosenberry & Okoneski, of Wausau, to defend him. The case is likely to occupy a week's time.

Under the heading of Issues of Fact for Jury, is listed seven cases, and under Issues of Fact for Court, twenty-two cases, a number of the latter being actions brought for divorce.

As the circuit court sessions always bring a number of outsiders to our city to serve as jurors, and others to appear as witnesses, the hotels will doubtless be taxed to capacity next week.

DOINGS AT THE TRAINING SCHOOL

A number of teachers utilized Wasington's birthday by visiting the Normal School and among them were Olga Johnson, Tilda Stephens and Gerda Turn.

If the young people of this city knew the high quality of pictures shown, free, every Thursday afternoon, under the auspices of Training and city schools, more would come to see them. This week the grand canyon of the Colorado river will be shown.

The latest model of the De Lora separator has been installed in the agricultural department of this school.

The store room connected with the agricultural department looks like a corn ware house. This is a time when seed corn is being tested for vitality.

This is a nine weeks quarter and we are beginning on the second half of it.

The Rural economics is busy with its social survey of a portion of the north side. It is expected that all the data will be in, ready for tabulation at the beginning of next week. This is a thoroughly practical piece of work. It is intended to show how a teacher can make a survey of her school district and thus be able to accomplish more than she could without the intimate acquaintance the survey gives.

BIRTHDAY PARTY

Mrs. Kate Ruggles was tendered a pleasant surprise by fifty of her lady friends on Monday afternoon, the occasion being in honor of her birthday anniversary. The gathering was held at Odd Fellows' hall where the afternoon was spent playing cards, refreshments being served at the close of the games, when prizes were awarded, in the order as named to Mrs. Steve Dunn, Mrs. C. H. Roepcke and Mrs. Mike McDermott. Mrs. Ruggles was presented with a handsome gift by the ladies. The party was in charge of Mrs. Mel. Sweet and Mrs. G. White and was pronounced a most enjoyable affair by all who participated.

BOY ENTERS BEAR'S DEN

The Crandon Republican publishes the following in its last week's issue:

Harlan Chaney, of the township of Crandon, has put it all over the hunters of northern Wisconsin by crawling into a bear's den and killing the bear.

Last week Thursday, Chaney, who is only sixteen years of age, went rabbit hunting with his two dogs. The dogs finally found the den of a bear, and their furious barking attracted the attention of the young hunter. Chaney hurried to the dogs and soon discovered the cause of their excitement. Not being able to get a shot at the bear from the outside, the boy cocked his 30-30 carbine and crawled into Mr. Bear's bedroom, the little dogs bravely sticking by their young master, crawled in also. Chaney felt a round in the darkness and unwittingly grasped the bear by a paw. Mr. Bear then showed himself and instead of shaking hands with his caller, took a vicious slap at the boy. Chaney then discharged his rifle in the bear's face, hitting it near the eye, and blowing its brains out.

"The animal was a male, one year of age and weighed about 125 lbs. It had a beautiful coat of fur."

WOLF BOUNTIES

During the month of February the county paid bounties on three wolf scalps, the money, \$10 in each case, going to Chris. Anderson, who killed a wolf in the town of Plehi; to W. O. Grabs for one from the town of Minocqua, and the third to Frank Holtz, a town of Little Rice farmer. In addition to the bounty paid by the county the three persons named will receive a like amount from the state. The hides are worth from \$3 to \$5 each also, so wolf hunting is quite a profitable business.

ARE AT MADISON

Secretary Barstow of the Advancement Association, and City Superintendent of Schools, Prof. Colburn left last night for Madison where they will appear before the lawmakers today in the interest of the normal school for this city. A bill was introduced to repeal the law for establishing another normal school in the northern part of the state. This is the school which seemed likely would be located by the normal regents in this city, as none of the other cities in the field had anywhere near the advantages possessed by Rhinelander.

CLOSE SEASON FOR GAME FISH

The open season for all game fish common to the waters in this locality comes to an end March 1st, and from that time until June 1st, it will be unlawful to take fish by any means from the lakes or streams of Wisconsin. During the present winter fishing through the ice has been unusually good and a number of Rhinelander residents have made good wages supplying the local market.

THE SPLIT LOG DRAG

The split log drag has contributed more toward the economic maintenance of public highways than any implement of modern usage. It does not require special acts of the legislature, bond issues nor expensive educational campaigns to make it available as usually precedes construction work. A drag can be built or purchased for twenty dollars and is easily operated by any one who can drive a team. We need more drags in this state.

AUTO FIRE TRUCK IS RECEIVED

Rhinelander Now Equipped With A \$5,650 Seagrave Truck

The long looked for Seagrave auto combination hose and ladder truck, which was purchased by the city some weeks ago, arrived here from Columbus, Ohio, this morning, and was unloaded this afternoon, a representative of the company being sent here to look after that portion of the work and to give such instruction to members of the department as might be required on the handling of the machine. The truck is a large and strongly built affair, similar in every respect to those used in the largest cities of the country. It is equipped with an engine of 100-horse power, and has capacity for carrying 1,500 feet of hose in addition to the chemical fire-fighting apparatus and a four section ladder equipment. The cart now in use handles but 1,000 feet of hose and has no provision for ladders.

The new truck has powerful electric lights, one as a headlight, another as a searchlight and the third a rear light which can be used when backing up out of dark places or in cramped quarters.

A thorough test will be given the truck the next few days and it is hoped that it will come up to all the requirements claimed for it by the manufacturers.

HOLDS MEETING

The Rhinelander Advancement Association held a regular meeting at the city hall Monday evening. Thirteen members responded to roll call. At this meeting thirty members were nominated, from which number fifteen will be elected at the meeting held on March 8, to serve as a board of directors for the ensuing year. A communication was read from a chair manufacturing firm wishing to change the location of their factory. We hope to be able to give more complete information in this matter in a future issue.

HEAVY SNOW FALL

The mild weather which has prevailed throughout February in this section changed to colder Monday afternoon, snow falling during the night and all day Tuesday, making the heaviest fall of "the beautiful" here this winter at a single storm—about eight inches. The storm was accompanied by a strong wind and in the open places the snow drifted badly, but with a continuance of the cold weather there is sufficient for the loggers to make the roads necessary for finishing up their winter's work of hauling, and they are making the most of it, in some camps working the men and teams over time.

AUTOS FOR EUROPE

The Clintonville Four Wheel Drive Auto company, is turning out a \$600, 000 order for the four-wheel drive type truck. One hundred and twenty-eight trucks and numerous parts are included in the order.

W. A. Owen, president of the con. carn, declared that the order is going abroad, though he could not tell to what country.

One trainload of forty-five trucks has just been shipped to New York. A force of 125 men has been put on.

The Afternoon Bridge Club held its annual banquet at the home of Mr. and Mrs. A. H. Pierce Saturday evening. Mrs. H. L. Reers was high lady for the year.

FISH HATCHERY AT EAGLE RIVER

Superintendent Nerins, of the State Fish Commission has selected Eagle River as the location of the new fish hatchery to be established this spring by the state, and the site selected in that village is on the Eagle river just west of the creamery.

A building about the size of the creamery and several sheds will be erected on the river bank. At the water's edge an 80-foot dock will be laid giving ample facilities for the boats used in the spawn-gathering operations.

Work on the building will be started, soon so as to have it in readiness by the middle of April. From that time on for the next two months the hatchery will give employment to probably fifteen men.

It was generally thought that the site would be chosen near the Otter rapids on the Wisconsin river four miles west of town, but upon Supt. Nerin's arrival that site was immediately dismissed owing to the long haul it would necessitate.

UNUSUAL WEATHER

The weather that has prevailed in this section of Wisconsin throughout the month of February has not been equaled for mildness during a similar period since the early 80's, so old time weather prophets say. As a usual thing the very cold period of our winters is experienced from the 1st to the 20th of this month, regardless of what the weather previous has been. In the lower counties of the state many of the summer birds have returned and in this vicinity the crows have appeared in great numbers, and the "honk," "honk" of the wild geese passing over is frequently heard. All of which would indicate that old winter is near to its end.

CHANGE LOCATIONS

Adam Johnson, who for several years has conducted a grocery store at the corner of Brown and Philip streets, has moved his stock to the Robertson building on Eagle street and A. Martinson who has been doing business at the Eagle street location has taken Mr. Johnson's former place.

LICENSED TO WED

County Clerk Verage on Tuesday issued a marriage license to T. J. Sonstagen of this city and Miss Ida Kahn of Split Rock. The same day Even T. Johns of Monico appeared for a similar document, the young lady in this case being Mabel Cauthier of the same place.

GET INDIANS' SCALPS

The Flambeau Indian basket ball team visited Rhinelander Monday and in the evening tried conclusions. In the open places the snow drifted badly, but with a continuance of the cold weather there is sufficient for the loggers to make the roads necessary for finishing up their winter's work of hauling, and they are making the most of it, in some camps working the men and teams over time.

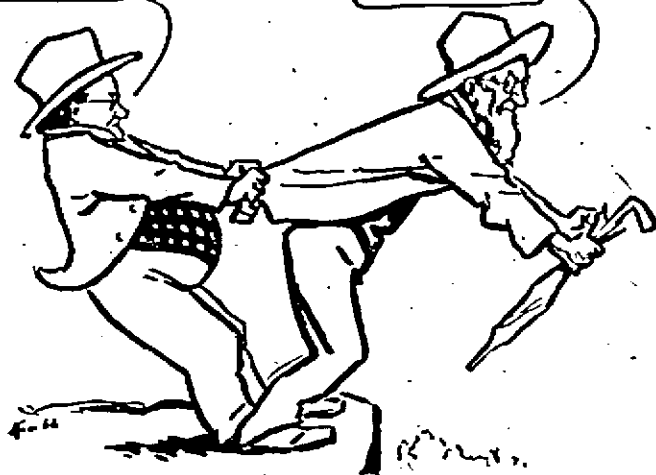

GIVEN SURPRISE

A very enjoyable gathering, in the nature of a surprise party was held at the home of Mr. and Mrs. Mike Sullivan last Friday evening by the friends of Mrs. Wm. Olson of Espanola, Can., who has been visiting her parents here for some time. Music, cards and refreshments filled in the time and it was a late hour when the gathering dispersed. Mrs. Olson left Sunday morning for Espanola.

IN NEW LOCATION

The Rouman ice cream parlor and confectionary is now located in the handsome new quarters three doors south of the former location. The new store is one of the most attractive places in the city, and the equal of any in this part of the state.

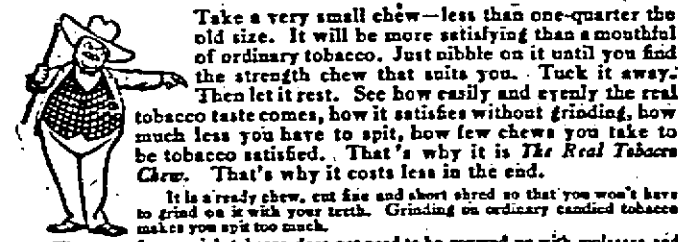

HOLD ON! YOU ARE TOO OLD TO JUMP DOWN THERE.

THE GOOD JUDGE CAUTIONS THE ANGRY DEACON.

GETTING the fine, satisfying comfort of the **Real Tobacco Chew** themselves, your "Right-Cut" users let no grass grow under their feet while they are passing the good word along to all their friends.

A little chew of pure, rich, mellow tobacco—cut fine, short shred—seasoned and sweetened just enough, cuts out so much of the grinding and spitting.

It is a ready chew, cut fine and short shred so that you won't have to grind on it with your teeth. Grinding on ordinary candied tobacco makes you spit too much. The taste of pure, rich tobacco does not need to be covered up with molasses and licorice. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

One small chew takes the place of two big chews of the old kind.

Iron Mountain—

The Iron Mountain Swedish weekly publication, "Efterbladet," (Gloverland) suspended publication with last Saturday's issue. The paper had been published for over a year past by Herman Ohlson. He worked hard, early and late to make a good sheet, but lack of patronage, heavy expenses and a number of delinquent subscribers caused the suspension.

Ironwood—

The next trial of M. A. Fitzsimmons on charge of embezzlement in connection with the failure of the late Bank of Ironwood will take place at Iron Mountain and Attorney Charles M. Humphrey, of this city, will act as prosecutor. This was decided in circuit court when the case came up for a hearing. Attorney M. Norris, acting for the defendant, made the plea for a change of venue and Judge Copper granted the motion, naming Dickinson county as the one in which the trial should be held.

Wausau—

John C. Kuhlman, a resident of Wausau for many years and prominent in political circles of Marathon county, died last week. He served in a number of city offices and was assistant postmaster for three terms, resigning a few months ago on account of his condition.

Ashland—

Sam S. Field who died at his home here last week at the age of seventy-five years after a brief illness of pneumonia was one of the oldest residents of the Chequamegon bay district and was widely known all over this section, and in fact all over the state. He established the Bayfield Press in the early seventies, and in 1872 moved to Ashland and started the Ashland Press which he owned and operated until 1883 when he sold out to the Chaplins.

Washburn—

A snow battle which started in a friendly manner ended disastrously for two boys of our city Monday afternoon. After battling for some time one boy chased the other into a woodshed and in his endeavor to dislodge his opponent from the shed an axe was used to pry open the door. In the mixup one boy had his finger nearly severed off. He then grabbed a scythe blade and attacked his opponent, striking him on the head, cutting a long gash.

Merrill—

Another rural telephone line, to give service to 25 subscribers, has been organized southwest of Merrill. The new company is known as the Snow Hill Telephone company and taps a rich section of agricultural lands. The officers of the new company are: Louis Kleinschmidt, president; William Yaege, secretary and Will Sukow, treasurer. Construction will begin as soon as is practical.

Ladysmith—

Mary, the 14-month-old daughter of Mr. and Mrs. Fred Flegler, of Atlanta, died last Friday, as the result of choking on a piece of cake. The mother stepped out of the room a minute and when she returned she saw the child choking, but frantic efforts to save it were unavailing.

Gladstone—

What is probably the biggest load of posts ever hauled in the Upper Peninsula, is that of which Emil Nelson, the photographer is exhibiting a picture which he took of the load at Shingleton, Mich., recently. The load contained 3575 seven foot posts of various sizes. The load was hauled by one team for a distance of two miles to a landing.

HOW TO PREVENT BILIOUS ATTACKS

SURPASSES RECORD IN SEAL SALE TO DEALERS

All records in the Wisconsin sale of Red Cross Christmas Seals were beaten this season according to a statement made by Otto F. Bradley, Campaign Manager of the Wisconsin Anti-Tuberculosis Association. Though there are a number of communities that have not reported, it is safe to say that the sale will total at least \$31,000, exceeding last year's sale by at least \$3,000.

West Allis, Burlington and Ellsworth have won the services of a visiting nurse for three, two and one week, respectively, for making the highest sales in their respective divisions.

First place pennants were won by Green Bay, Deloit, West Allis, Burlington and Ellsworth; second honors were taken by Oshkosh, Wausau, Waukesha, Monroe and Iola in the same classes. The highest per capita sale in the state reported was that of Ellsworth, 15.1 cents.

"The greatest feature of the sale this year was the rural school sale," said Mr. Bradley. Over four thousand rural school teachers in every part of the state had the pupils selling seals. Each teacher had a health story and a lecture to read aloud. The educational importance of this part of the sale was tremendous.

About six hundred rural schools sold 500 or more seals and they will be awarded an exhibit chart which gives a daily health program for boys and girls. A pennant will also be awarded to the school in each county having made the highest sale per capita of enrollment.

NEW FEDERAL TRADE BOARD

Monday President Wilson nominated the following members of the new federal trade commission:

Joseph E. Davies, Madison, Wis. Edward N. Hurley, Chicago. William J. Harris, Cedar Rapids, Ia. William H. Parry, Seattle. George Rublee, Cornish, N. H. Rublee the only Progressive.

The commission has three Democrats, one Progressive Republican and one Progressive. Parry is described by the White house as a progressive Republican and Rublee as a Progressive.

Mr. Davies is commissioner of the bureau of corporations, which is merged with the commission under the new law. Mr. Hurley is a trade expert with extended knowledge of Latin-American conditions. Mr. Harris is director of the census. Mr. Parry is a lawyer and business man and Mr. Rublee is a lawyer who was consulted frequently by leaders in congress when the trade commission bill was being framed.—Exchange.

TO OPEN SHOE STORE HERE

The Herbert Shoe Co. of Antigo will establish a store in this city the early part of the coming month. The store building at the corner of Brown and River street, formerly occupied by Dorey & McLaughlin, has been leased by the concern and will be remodeled to suit.

Kenneth Maxwell, who has been at the head of the Antigo store for a number of years will have charge of the branch here.

G. H. Roepeke, deputy oil inspector for this district is in receipt of the following from the office of State Supervisor of Inspectors of Illuminating Oils:

"In an opinion rendered this department Jan. 19, 1915, the attorney general says in part:

"It follows from the authorities above quoted that every dealer, whether at wholesale or retail, in gasoline, benzine or naphtha, in this state, whether he be the importer or any other person, can keep or sell such products only in the containers mentioned in the statute, which are painted vermilion red, and any such person keeping such high explosive products in a container painted any other color may be prosecuted under the provisions of section 14210. Conversely, any such dealer, whether importer or any other person, who keeps or sells kerosene in any container painted red also offends against the provisions of section 14210 and may be prosecuted thereunder. This also applies to all persons keeping for use or using the petroleum products mentioned in section 14210, as the provisions of that section apply to the users of such petroleum products as well as dealers therein.

TIME TO SWAT THE FLY

Uncle Sam is waging a relentless war on the deadly housefly and in a late bulletin prepared by the Department of Agriculture, valuable information is given on the best means of combating this deadly pest. The most effective way of exterminating the fly, according to the bulletin, is to eradicate his breeding places. The breeding season of the fly begins early in March and continues through the spring and summer months. All dirt should be removed from the premises, stables cleaned and decayed vegetables destroyed.

The fly has rightly been called the undertaker's traveling salesman, and in addition to his regular line of "typhoid bugs," he carries a side line of tuberculosis, Asiatic cholera and other disease germs. Now is the time to "swat the fly."

HOW A DEEP SEATED COUGH

And Sore Lungs Were Overcome by Vinol—Mr. Hillman's Statement of Facts Follows:

Camden, N. J.—"I had a deep seated cough, a run-down system and my lungs were awfully weak and sore. I am an electrician by occupation and my cough kept me awake nights so I thought at times I would have to give up. I tried everything everybody suggested and had taken so much medicine I was disgusted.

"One evening I read about Vinol and decided to give it a trial. Soon I noticed an improvement. I kept on taking it and today I am a well man. The soreness is all gone from my lungs, I do not have any cough and have gained fifteen pounds in weight and I am telling my friends that Vinol did it."

—FRANK HILLMAN, Camden, N. J.

It is the curative, tissue-building influence of cod liver oil aided by the blood-making, strength creating properties of tonic iron, contained in Vinol, that made it so successful in Mr. Hillman's case.

We ask every person in this vicinity suffering from weak lungs, chronic coughs, or a run-down condition of the system, to try a bottle of Vinol on our guarantee to return your money if it fails to help you.

TOO MANY CHILDREN

are under-size, under-weight

with pinched faces and poor blood; they do not complain but appetite lags, they have no ambition and do not progress.

Such children need the rich medicinal nourishment in Scott's Emulsion above everything else; its pure cod liver oil contains nature's own blood-forming, flesh-building fats which quickly show in rosy cheeks, better appetite, firm flesh and sturdy frames.

If your children are languid, tired when rising, catch cold easily or find their studies difficult, give them Scott's Emulsion; it supplies the very food elements that their systems lack.

Scott's Emulsion contains no alcohol and is so good for growing children it's a pity to keep it from them.

14-47 Scott & Bowne, Bloomfield, N. J.

The current issue of the Scientific American prints a disconcerting fact about the pressure on an auto tire when jacked up and when supporting the car. Pump the tire up to eighty with the machine off the floor and then allow the wheels to support the weight of the car and the difference will be but four tenths of a pound. In other words those of you who have taken pains to jack your car off the floor every night have accomplished little or nothing by so doing. That there should not be greater relief from pressure is surprising but the source of the information assures its reliability.

ALL OUT OF SORTS

Has Any Rhinelander Person Never Felt That Way?

Feel all out of sorts? Tired, Blue, Irritable, Nervous? Back feel lame and achy? Perhaps it's the story of disordered kidneys—

Bad blood circulating about; Uric acid poisoning the body. There's a way to feel right again. Stimulate the sluggish kidneys; Do it with Doan's Kidney Pills. Doan's are recommended by many Rhinelander people.

Here's one case. Mrs. D. McIntyre, 833 Mason St. Rhinelander, says: "My kidneys were weak and I had attacks of backache. Often I was dizzy and nervous and mornings when I got up I felt all tired out. I finally got Doan's Kidney Pills at Reardon's Drug Store and was greatly benefited. The tired feeling and pain went away and the kidney weakness was also corrected. I have never been severely troubled since."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. McIntyre had. Foster-Milburn Co. Trepa, Buffalo, N. Y.

WOULD RAISE MORE BEEF
In Wisconsin suited for beef production?

John L. Torrey, secretary of the Wisconsin Short Horn Breeders' association, says it is and backs up his claims in such a way as to greatly encourage anyone who has had any doubts in the matter.

In the last issue of the Wisconsin Bankers' Farm Bulletin, Mr. Torrey has this to say about Wisconsin as a producer of prime beef:

"Wisconsin is naturally suited for beef production. Southern Wisconsin pastures are equal to those of the blue grass section of Kentucky. Upper Wisconsin is the clover land of America and includes a vast amount of choice grazing land. This state is famed for its abundance of pure water. Corn, for silage—the beefman's salvation—and for other feeding purposes matures in nearly all sections of the state and yields profitably. Clover hay, the choicest roughage for feeding cattle can be raised throughout the state. Certain of the root crops, nearly equal to corn silage in feeding value and scarcely excelled as a succulence, can be profitably grown throughout the northern section of the state. Four of the chief live stock markets are located at our very doors.

"Beef production," he concludes, "is now a paying proposition on \$200 an acre land."

RECOGNIZED ADVANTAGES

You will find that Chamberlain's Cough Remedy has recognized advantages over most medicines in use for coughs and colds. It does not suppress a cough but loosens and relieves it. It aids expectoration and opens the secretions, which enables the system to throw off a cold. It counteracts any tendency of a cold to result in pneumonia. It contains no opium or other narcotic, and may be given to a child as confidently as to an adult. For sale by All Dealers.

COLDS AND CROUP IN CHILDREN

Many people rely upon Chamberlain's Cough Remedy implicitly in cases of colds and croup, and it never disappoints them. Mrs. E. H. Thomas, Logansport, Ind., writes: "I have found Chamberlain's Cough Remedy to be the best medicine for colds and croup. I have ever used, and never tire of recommending it to my neighbors and friends. I have always given it to my children when suffering from croup, and it has never failed to give them prompt relief."

TO SHOW WHERE MONEY GOES
Madison, Wis., Feb. 22.—There has been so much discussion as to how much of the taxes paid goes to the state and how much to city or county that Senator Scott and Assemblyman Nye have introduced bills to require this information to be furnished on every tax receipt. The measure provides for segregation of these accounts on the county records.

Similar laws have been enacted in several states, with the result, it is asserted, that much extravagance in taxation has been eliminated.

CREDIT TO MR. STEELE
We are in a position to know that it was Judge Steele and Judge Steele who advocated the contest over the legality of the Griffith forestry policy. It was Judge Steele who conceived the idea of getting the state through the authority of Governor McGovern to furnish the services of Attorney Goggins to work with our attorney, Mr. Steele, in this contest before the Supreme Court.

It is always our pleasure to give credit where credit is due. Attorney Steele has given much time and effort to the protection of the farm lands of northern Wisconsin against the Griffith ravages.

MADISON CORRESPONDENT
The forestry decision was the principal topic of interest during the last week of the legislature. While there was considerable difference of opinion as to the exact effect of the decision, one thing is certain, and that is that the grip of the forestry board on the lands in the proposed forestry area has been loosened. It will very likely be some time before an accounting is made by the referee appointed to make an accounting of the trust funds to which the lands revert.

When that time comes the lands will be subject to the control of the public land commissioners, which is composed of State Treasurer Henry Johnson, Secretary of State John S. Donald, and Atty. General Walter Owen. They will then very likely be disposed of to settlers in tracts of 160 acres.

The forestry department interprets the decision to permit the legislature to direct that the lands be reforested, but that all the proceeds from the sale of land or timber would go into the school fund. It is difficult to say at this time whether this proposal would meet with the favor of the present legislature.

GRIFFITH TO RESIGN
Edward N. Griffith, state forester, promised his resignation from that office at the end of the present session of the legislature, before the legislative committee investigating commissions and boards Saturday afternoon.

During the session of the committee the reforestation program was attacked by several legislators among them especially D. N. Moran. The recent decision of the supreme court, adverse to the work of the forestry board together with difficulties encountered in carrying out the work in the northern part of the state, is thought to have determined Mr. Griffith to announce his resignation. He has been with the state for ten years.

Forester Griffith is no benefit to this part of the state and we hope he will resign or be removed. If he were a practical forester living in the reforestation district, we would have faith in him. From the first of the anti-forestry fight this paper has claimed that this part of the state will not be secure with Griffith as forester and it gives us pleasure that our assemblyman, B. N. Moran, is boldly attacking Griffith's past record. Assemblyman Moran is making himself felt on several issues of interest to northern Wisconsin.

FOR ALL WATER POWERS
The fight on the part of the water power interests to gain control of all the remaining water power sites

in the state, began before the joint committee on Conservation on Tuesday. They are seeking the passage of the Achley bill, the product of several leading water power attorneys. All the bills asks is perpetual franchises for the person or corporation, who happens to own the bank of the river, with no compensation to the people for the use of the river, either present or in the future.

Provision is made whereby the state, or a municipality may buy back the power rights which they are now asked to give away, at a price based on the power company's right to a perpetual use of the river. The price would be prohibitive and practically make it impossible for the people ever to derive any benefit out of this great public resource.

This fight marks the final attempt on the part of the power interests to jam a bill of their own liking through the legislature, after failing to get their wishes for the several sessions just past. The present bill goes back to the good old days before such a thing as protecting the people's interest in the streams was ever thought of. It proceeds upon the assumption that the people are electing—the present administration don't care, and those who have secured control of power sites are going to make the most of their opportunity. Governor Philipp and his followers are in full sympathy with the bill, and the representatives of the power men in the senate have boasted that they have the votes to put any kind of a bill they want over. Close inspection of this bill discloses the fact that they couldn't possibly have asked for anything more than they are getting.

United States Senator Paul Husting appeared before the committee in defense of the present law, which allows owners of sites the free use of the stream for thirty years as an incentive for development. This does not appeal to the power men, as they see a chance to get a franchise which will last forever. Senator Husting pointed out the tremendous importance of retaining control of this, our last important public resource in the hands of the people. Several hearings will be held on the bill. Senator Stevens and Assemblyman D. N. Moran are members of the committee having the bill under consideration.

ROCKEFELLER
When he was on the stand before the Federal Commission on Industrial Relations, John D. Rockefeller, Jr., was asked whether he believed corporations could be trusted to be fair with their employees. He replied, "I do not believe so."

Coming from one of the world's most powerful absentee capitalists this is an interesting and significant admission. But not more so than Mr. Rockefeller's inability to suggest any means of securing "fairness" from employers. His contribution to this vital problem was quite of a piece with Mr. Taft's famous "God knows". It was a plain case of ignorance or indifference—or both. The sum total of Mr. Rockefeller's political economy appears to consist of the two words—"directors" and "dividends."

Brandels

Turn now to the testimony of Louis D. Brandels before the Industrial Relations Commission. Mr. Brandels, "the people's lawyer," has a practical working knowledge of industrial conditions. He understands the problems both of the capitalist and the employee. One of his great contributions toward the solution of the industrial unrest was the Preferential Union Shop in the needle working industry of New York City through which more than 100,000 workers have been given a large degree of industrial self-government. Mr. Brandels was not at all at a loss for a remedy for the well known conditions that reacted a bloody climax in Mr. Rockefeller's Colorado coal fields.

"We have fundamental political liberty and democracy," Mr. Brandels said. "Every man has a vote, a voice in government. We are absolutely committed to political democracy, but there is no such democracy in industry. I consider that that is the fundamental cause of industrial unrest, and that the remedy is to give the worker a voice, not only in determining the division of the profits, but in the management of the industry. He should share not only in the profits, but in the responsibility as well."

The issue.

Mr. Rockefeller standing for absolutism; Mr. Brandels speaking for democracy—that a contrast! The hearing in New York has made it evident to all that nothing is to be expected by way of social reform from the "masters of capital." Industrial democracy will be achieved only by continued struggling. The issue is clear.—LaFollette's.

CANADIAN NONSENSE
"You want a cosy home, a free life and sufficient income. You want education for your children and some pleasure for your wife. You want independence. Your burden has been heavy and your farm hasn't paid. You work hard and are discouraged. You require a change," etc., etc.

So says Canada to the Wisconsin farmer. Such bunk many weeklies are forced to print because of contracts between Canada and publishing concerns which supply "paid insides" for country newspapers. But this from the report of the Canadian Government Agent for Wisconsin to the Canadian Superintendent of Immigration at Ottawa, is suggestive:

"In the southern or older parts of Wisconsin I find less desire than formerly to move West. This is accounted for by the fact that dairying, which is the chief business of this district, has been very profitable for the past two or three years and is getting better every year."

We believe it is and the industry can't be started. And there's an empire yet to be developed within the state. The Wisconsin farmer never was more prosperous and the prospect for future development never so bright as at this time.

AN ONEROUS, INEXCUSABLE BURDEN
Noting various propositions before the legislature for the amendment of the income tax law, the Evening Wisconsin suggested a few days ago that much could be said in favor of wiping out the law altogether, especially now that the federal government is reaping in the same field. This has brought from a Milwaukee subscriber the following interesting letter:

Your suggestion is very timely. Here is what I am up against:

Income (monthly salary, only income I have).....\$2,400
Exemptions—Self and wife.....\$1,200
Children (have seven entirely dependent but three are 18 or over). Leaves four at \$200 each (\$800).....\$2,000
Balance subject to income tax.....\$400

Now, if the other three children (18, 20, 21) were included in the exemptions—and there is no moral reason why they should not be—because they are still going to school and absolutely dependent on me—it would be an incentive to me to look for a permanent home in Milwaukee, but under the circumstances am forced, probably to take those three girls out of school and put them to work. Fine idea!!! I am taxed for the privilege of extending to those three girls the advantage of an education at considerable sacrifice to myself, simply to produce a better class of citizens and for the benefit of the coming generation. But, if it is the law—and apparently it is, as I had to pay last year—I will obey the law until such time as I can escape the law by simply moving to a more favorable part of our "land of the FREE".

This is a plain, straightforward, practical statement that ought to convince members of the legislature of the advisability of getting rid of the state income tax law.

Editor of New North:

Above is an editorial from the Evening Wisconsin which I think has passed your attention. The Wisconsin falls to comment on the fact that the man is educating seven children in the public schools of Milwaukee and as he mentions no other taxes he has to pay we must conclude that he is taxed the magnificent sum of (\$4.00) four dollars a year for the education of seven children in the public schools.

It reminds me of the story of the millionaire who arrived at the gates of the Celestial City. On being asked by the gate keepers what he had done to entitle him to be admitted; he said, that at one time he gave a poor news boy two cents for a paper. After due consultation by the gate keepers it was decided to give the two cents back to the rich man and tell him to go to Hades.

UNDESIRABLE BILL
There is a bill before the legislature to consolidate our municipal court and our county court under one head, the county judge. We are opposed to this bill because we feel there would be no saving in money under these conditions and much poorer service. Now the county judge has to take care of all probate cases, insane cases, requests for labor permits, examinations for commitments for feeble minded, insane and tuberculous cases and has charge of all juvenile cases which come before him.

Judge Steele has become much interested in juveniles and is giving them no small part of his time.

The municipal court has charge of all civil cases up to five hundred dollars, and all criminal cases, the sentence of which includes all punishments less than a sentence to Waupun.

In the municipal court Judge Smith is compelled to give a large part of his service to the duties of his office, consequently we are opposed to the change. We feel that the service rendered with two separate courts is as cheaply conducted, better and of a higher grade than would be the combination.

LAFOLLETTE FOR PEACE
Washington, D. C., Feb. 12.—"Shall we wait until other nations are drawn into the struggle?" demanded Senator LaFollette, Friday afternoon "or shall we and the neutral nation meet and make articulate the protest of the peaceful half of the world's population—a protest tempered by sympathy and affection and reason and yet so strong and so persistent that it shall finally be heard above the roar and crash of the world's greatest war?"

"It devolves upon the people of the world who are not in the conflict, who can still exercise a calm and dispassionate judgment, to confer together and strive, as the unbiased friend of each belligerent, to bring about a cessation of hostilities. Less than a year ago, Argentina, Brazil and Chili set the world a noble example in their proffer of mediation in the case of Mexico."

"We do not want to see the map of Europe changed by might of conquest. We can not believe that it is in the interest of human progress that any one of the nations should be wiped off the face of the earth."

"It is objected that the warring nations do not want peace; that they would rather fight it out, ere it leads to extermination. But whatever may be the belligerent's mind today, no one can say what it may be tomorrow."

"Great Britain assumes the right to fly our flag in self-protection. We are warned that Germany may not be able to determine whether our flag designates a neutral or an enemy. That situation is filled with menace. Who can say at what moment the dark curtain that veils so much may be swept aside by uncontrolled forces that will draw the whole world into the vortex of war?"

GERMANS AMERICANS THINK FIRST OF THE WELFARE OF AMERICA

No War For Us, Says German Writer—Declares Americans Stand United Against Any Foe

By Herman Ridder
(Editor of The New York Staats Zeitung.)

The United States stands, admittedly, in an extremely difficult position in regard to its relations with the various belligerent nations of Europe. As the most powerful of present neutral nations not only are its resources called upon by them, but its active participation in the war is apparently being solicited. We have been invited from more sides than one to join the party. Shall we accept? I think Washington, feeble in its diplomatic ability, will send its regrets.

Out of this war, however, the contest of arms in Europe may go, we shall emerge a nation hated by all of the present belligerents. A foregone conclusion. Germany regarded our note to Great Britain as not forceful enough. Great Britain perceived that we addressed her at all. We cannot serve two masters. Our only sure policy lies in service to one master—and that master is American interests. Whether Great Britain or Germany likes or dislikes this policy matters very little to us as a nation. We have a right to assert our privileges and no other power has the right to deny them.

There is not going to be any drawing of the United States into the war. We are, as a people, divided as to the merits of the claims of the various conflicting interests. We are on the other hand, a people united against foreign intimidation or interference.

"The man in Germany or in England who thinks for a moment that the American people—and I mean by this all the people in the United States—would not present a firm and united front to a foreign foe is lamentably mistaken."

Might Get It That Way.
An absent-minded husband was asked by his wife to stop in a store on his way downtown and buy her three articles of feminine wear. Of course when he reached the store he had forgotten what they were. So the young clerk behind the first counter was amazed to hear: "Excuse me; my wife told me to come in here and get her some things to wear and I've forgotten what they are. Would you mind naming over a few things?"

Optimistic Thought.
Better ask than go astray.

Dangerous.
A little trigger is a dangerous thing.—Life.

Although frankly avowing his sympathy for the German cause, Congressman Herman A. Metz, Brooklyn, former city controller, has written a letter to The German Herald in Manhattan, in which he takes a firm stand against the spread of the "German-American" spirit in this country. His letter is in answer to criticisms directed against him in the German newspaper for having maintained that the federal administration has been acting with entire fairness to all parties concerned in the great war.

After explaining that as an American he has consistently urged the prohibition of exports of arms and munitions of war at this time from the United States, Mr. Metz says: "This sympathy, however, does not blind me to the fact that our first thought here should be for the best interests of the United States. I, therefore, believe that agitation along political lines, such as is now being advocated by many German who are not even citizens, although there are many who are, is hurtful not only to the German cause but to the German-Americans themselves. It will simply result in factional conflict, with the effect that in some communities every politician will strive to win favor with such faction."

"Personally, I have no sympathy with any man who seeks the votes of one faction as against another for any reason based on nationality or religion. In other words, I have as little use in our politics for the professional German or the professional Irishman, as I have for the professional Catholic or the professional Jew. I do not believe that any of them have any place here. Next to the United States, I am proud of Germany; not only because my father was born there, but because—of her antecedents and the personal knowledge I have gained by traveling extensively in Germany, England, France, Belgium, Russia, Austria and other European countries. Still, I have no quarrel with anyone who may not share my views of Germany; and I hope that the attempt to segregate into a class by themselves the German-Americans, whether native born or naturalized, as against other Americans, will fail. It can do nothing but harm."

CLIPPING THE WORK HORSES

If Animal Is Worked to Extent of Perspiring It Dries Off Quickly When Hair Is Cut Short.

Logic and practical experience indicate that any horse which must regularly exert itself to the point of profuse perspiration should be clipped whenever the hair is long. Unless a horse obliged to labor until covered with perspiration has the long hair taken off, it naturally holds its perspiration for a considerable time, and if the animal is left outside in cold weather, or even if stabled in other than a warm building, it is likely to suffer from coughs, colds, pneumonia and other diseases that may be brought on by such a condition. On the other hand if the long hair is clipped off and the horse is forced to labor to the extent of perspiring, it dries off very quickly when left standing, but in all cases it is wise to use a blanket. The blanketed horse with short hair will dry off quickly while the same animal with a coat of long hair dries off very slowly with or without a blanket, and the probability that it would be disabled in some manner is much greater for the unclipped horse. It is growing to be quite a common practice to clip work horses in the fall, the owner being careful to instruct the driver to use a blanket whenever the animal is left to stand on a cold day, and when stabled in any but a comfortable building.

CATARRH OF HEAD AND STOMACH

Took Peruna Five Bottles Cured Me

Mr. Frank Richter, No. 399 East Second St., Winona, Minn., writes: "My catarrh was principally located in my head and stomach. I tried many remedies without success. I tried several doctors, but they were unable to cure me. I read of Peruna in the papers, and five bottles cured me."

"As a remedy for catarrh I take pleasure in recommending Peruna for catarrh of the stomach. I know what it is to be afflicted with this awful disease and consider it my duty to say a word in behalf of the remedy which gave me such relief. Peruna cured me, and I know it will cure any one else who suffers from this disease. It gives me great pleasure to testify to the curative effects of this medicine. Peruna is a well tested and frequently used remedy, and for catarrh of the stomach it is unsurpassed."

"As a rule, people when ailing apply very properly to a doctor before resorting to a ready-to-take medicine. The great majority are cured by the doctor. But a per cent. of chronic cases fail to find a cure and at last begin to use ready-to-take medicines. It is very noticeable indeed the number of people among our testifiers who say that it was only after the doctor had failed to cure them that they were induced to take Peruna. Then they find to their relief, to their surprise, to their joy, that Peruna is the remedy they should have taken at first."

Woodboro spent her vacation with
her parents.

If you want good potatoes buy
good seed. Fred Campbell, our pota-
toe grower is selling them
from 85c to \$1 per bushel.

A sleigh load of young people
from Eagle River enjoyed a chick-
en dinner at the Lucy Hotel Sunday
evening. The young folks of the
party were the Misses Slattery, Fran-
kel, Puckette, Ferguson, Byrne, and
Messrs. Frankel, Olmstead, Wiel,
Arager and Wiegand. All reported
a good time.

We can all take off our hats to
Howard Neu for the fine mess of fish
he caught Sunday.

A HAIR BREATH ESCAPE
The truth of the saying that ap-
pearances are deceitful was most
vividly forced upon us a few days
since. Two of our young ladies most
emphatically affirmed it. Leaving
the village, behind old Don, each fol-
lowing his own thoughts, lost in
rhapsody and contemplations of the
beauties of our scenery, they were
entirely unprepared to cope with
an unexpected rejuvenation of old
Don's youth.

Was it rejuvenation of youth or
merely a hint of coming spring? Far
be it from us to speculate. At any
rate old Don, made with the gallop
of the race, rearing and plunging and
in spite of the girls' ejaculations of
"Gee up," and "Gee haw," tore mad-
ly down the road. We dare not
think of the possible consequences
of old Don's escapade. However,
old Don finally realizing the futility
of rejuvenated youth, stopped in this

mad gallop, slowly turned, and
after glancing once at his terrified vic-
tims, with a remorseful heave
ambled slowly homeward. Do you won-
der at the girls' decision that,
"henceforth when in need of a constitu-
tional we prefer skis."

AROUND THE CIRCLE
O. Engstrom says that the old
stork made a mistake last week
when it left a fine little "Dutch la-
dy" at their home but says that if
he is inclined to take readily to farm-
ing that he will give him a fair trial.

Both mother and child are doing
well. Miss Hannah Kullenberg as-
sisted in the culinary department dur-
ing Mrs. Engstrom's illness.

Owing to a little misunderstanding
in regard to the exact lines the
farmers in the vicinity of the Gross
and Lewis neighborhood are having
them re-surveyed last and this week.

Bruce Cook had the good fortune
to bag a fine specimen of black
fox last week and feels as tickled
over it as a "kid" does over his
first pair of new red topped boots.

That's all right Bruce you have a
right too.

Miss Annie Schroeder, teacher in
the Lassic district, left for "Antigo"
Friday, where she will spend Sunday
with friends and attend teachers' in-
stitute.

W. Meyers is hauling pulp wood
for D. Kress this winter.

J. Pollinski, we understand, has
purchased the Urbank property just
west of the city.

G. M. Estes, "the show me man",
has started the wood business up-
on his place recently purchased of
E. S. Shepard, on the west shore of
Lake Julla and is ready to fill any
order for long or short wood.

Misses Hazel and Vivian Hack
were city callers on "Birthington's
Washday" spending the day with
their numerous friends.

STARKS
Chauncey and Louis Anderson
were fortunate enough to kill a wolf
last Thursday.

Mr. and Mrs. Dave Lansing spent
Sunday in Rhinelander.

Cinderella Opolka was the guest
of little friends in Rhinelander last
Saturday.

Miss Luverna Connors spent Sat-
urday and Sunday with her parents at
Three Lakes.

Mrs. J. Hess was a Rhinelander
caller Thursday.

D. Walker of Pardeeville, Wis., is
enjoying a visit at the home of Er-
nest Walker.

H. Donohue spent last week in
Rhinelander.

Friday on business.

Mr. and Mrs. Ed. Rudolph have re-
turned from the Hot Springs where
they went for Mrs. Rudolph's health.
She is improving slowly.

Mrs. Ida Blaisdell of Boulder Jet.
visited Mrs. J. H. Scholtz last week.

Ethel McCamley of Merrill visited
her sister Mrs. Hoy Sunday.

Sheriff Crofoot of Rhinelander ha-
dinner with H. N. Hillis Sunday.

Born, to Mr. and Mrs. F. Morris,
Feb. 22, a boy.

We are sorry to see by the Rhine-
lander News, that the police were
called to quiet the Woodruff young-
sters for disturbing a dancing party
held by the depot force at the C.
& N. W. R. R. depot. But "young-
sters" hearing the band playing,
and wishing to learn to tango and
fox trot, two of the things their par-
ents could not teach them, they
thought they could find no better
instructors than those inside. In
trying to keep step with the music
the "youngsters" overturned seats,
etc., outside and made quite a
noise which accounts for the local po-
lice being called.

ALEXANDER WOMAN'S CHRISTIAN TEMPERANCE UNION

New From Committee: Mrs. Gorka, Mrs. Howe, Mrs. E. K. Riek, Mrs. Emma Wilde, Mrs. C. P. Crosby.

What Lincoln Really Said
The indignation of admirers of Abraham Lincoln has been frequently aroused by the use of his name by the liquor interests, as an advocate of their traffic.

Not only was Abraham Lincoln, the great hearted friend of the people, a total abstainer, but he was an outspoken advocate of the temperance cause. On Sept. 29, 1863, he said, "When I was a young man I made temperance speeches and to this day I have never by my example belied what I have said." In the same speech he definitely allied himself with the cause when he said, "In the advocacy of the cause of temperance you have a friend and sympathizer in one," declaring it as his belief that "temperance is one of the greatest, if not the very greatest, of all evils among mankind."

Realizing the enormity of the evil which was threatening the very life of the nation he gave his approval to no half-way measures in eradicating it. On Jan. 23, 1858, he urged, "Let every friend of temperance frown upon all efforts at regulating the cancer. Any license law, however stringent, must eventually increase the evil."

The opponents of prohibition frequently say they admit that at an early period in his life Mr. Lincoln did speak for temperance but in his maturer years he changed his mind, and they cite as proof that it was with his consent congress passed an act providing for the raising of revenue from the liquor traffic. Those who were close to the great Emancipator during those trying days know that his soul rebelled against this action, and he consented to it only as a war necessity and upon the positive assurance of the leaders in congress that as soon as the war was over the law would be repealed.

One of the most convincing evidences of Mr. Lincoln's continued opposition to the drink traffic is given by his intimate friend, Mayor J. B. Merwin. On the very last day of the great President's life, in a private conversation, Mr. Lincoln said to him: "Merwin, we have cleared up a colossal job. Slavery is abolished. After reconstruction, the next great question will be the over throw and suppression of the legalized liquor traffic, and you know my head and my heart, my hand and my purse will go into this contest for victory. In 1842, less than a quarter of a century ago, I predicted that the day would come, when there would be neither a slave nor a drunkard in the land. I have lived to see one of my predictions fulfilled. I hope to live to see the other."

Russian Prohibition
New York, Feb. 2.—There has recently been visiting in this city Mr. Edward Miller, who is connected with the great jewelry house of the Tiffanyes and manages for them a branch house in Moscow. Mr. Miller left Moscow about the first of November and his statement concerning the results that were then visible from the closing of the vodka shops and why they were closed is extremely interesting. He says: "I am a hard-headed business man, but never have I imagined such a sudden social regeneration of a people as I saw in Russia following the closing of the vodka shops. Not only did productivity in my own shops increase incredibly, but the whole appearance of the peasantry changed from looking like a people who never had a square meal, they came to look like a people fed, nourished, and masters of themselves. Bank deposits increased enormously, over \$11,500,000 more being deposited in the banks this September than in the previous September. Crime and fires decreased incredibly. 'My job is gone,' said the police commissioner of Moscow; 'there is nothing doing; occasionally a murder, but what was threatening the very life of a changel'."

"But do not imagine," says Mr. Miller, "that the government did long time there has been in the village a strong national prohibition movement, the people being outraged that the government was collecting money out of their degradation when the war came, and it was decided to close the vodka shops for the moment, with a view to mobilization of the peasants. 'Now is the time to ask for permanent prohibition, for the government, wanting soldiers, not revolutionists, will not dare refuse.' The government did not dare refuse, and as it owned the supply prohibition did prohibit and the world had a chance to see the economic burden that falls from a people with the passing of alcohol."

From Congressmen in the House of Representatives to the confirmed alcoholic leaning against the bar of the saloon, the advocates of the liquor traffic will continue to vociferously assert that prohibition's prohibitive qualities are practically nil and that to enact a prohibition law is to help increase the consumption of alcoholic liquors.

We know of no better or more satisfactory way to silence individuals who make such statements than to remind them that the report of the commissioner of internal revenue for the fiscal year ending June 30, 1914, shows a decreased production in distilled liquor of 10,000,000 gallons as compared with 1913, and a decreased consumption for the year of 4,000,000 gallons. These figures do not show the actual decrease in consumption as the term "consumption" is used to cover all liquor taken from bonded warehouses it does not follow it has been consumed, as liquor cannot be in bond for a longer period than eight years.

During the past year there have been 127 fewer distilleries in operation in United States than in past years, and a decrease in the last twelve months of thirty-three in the number of breweries operated.

HEALTH
Cancer is Curable
When educators organized for an attack on preventable disease they chose, in tuberculosis, the greatest single cause of death, and one which finds the vast majority of its victims in early adult life. The next great attack was made on the preventable causes of death in infancy. Most encouraging progress has been made in both of these campaigns. As a result, the great reduction in the number of preventable deaths and the great increase in the average length of life have been secured in early life. Encouraged by what has been accomplished in the foregoing campaigns, a national movement has now been started against cancer. This effort will receive the hearty cooperation and assistance of this Bureau.

In engaging cancer battle is being offered to what is, perhaps, the most serious and difficult health problem of later adult life. Nevertheless, there are splendid opportunities offered for cutting down tremendous amount of preventable suffering and greatly decreasing the number of premature deaths from this cause.

By acquiring a little fundamental knowledge about cancer one can lessen to a great extent his own chances of acquiring the disease in a fatal form. Know that the disease is easily cured if recognized early and promptly and efficiently treated. Cancer usually, at first localized and is almost invariably painless. Many cases arise in moles, warts, as little horny growth on the lips, tongue, etc. An unnatural, slowly growing lump in any location, and particularly in the breast, is a signal for a prompt visit to a thoroughly competent and reliable physician or surgeon. The latter should be consulted at once concerning any unnatural bleeding, especially in middle life, or later.

In no instance is there any warrant for becoming panicky. A suspicious sign will not become a cancer simply, because a patient visits a physician. On the other hand if it is cancer ignoring the signs will not drive it away, but will waste the time, in which a beginning cancer is absolutely and easily curable.

Neglected, long existing cancers are practically incurable. Obviously, the common sense course is to learn the truth from reliable and experienced counselors. Then, just as a passenger in a boat must entrust his life to the pilot, so should the patient trust the physician and surgeon to see him through the troubled waters. Rocking the boat, or jumping into the current to grasp a straw in the shape of a deceptive "cancer cure", is silly and almost certain to be suicidal.

GAGEN

There was no mail delivered on the route Monday, on account of the day being a holiday.

The snow storm which came the first of the week is much appreciated by loggers as the roads were nearly all broken up.

Otto Miller, and Albert Ossman were Tomahawk visitors Saturday.

Miss Rosche of Forest City was a guest of Alma Halvorson Saturday and Sunday.

Mrs. Wm. Barton of the town of Cassian, who underwent an operation in Sacred Heart Hospital, died last Tuesday and was interred in the cemetery last Friday at Tomahawk. She leaves to mourn her death, her husband, two little sons, her mother and other relatives. Sympathy is extended to all.

Wm. Hawkins and Andrew Sornson came down from Berg's camp to visit and attend the Woodman dance. They expect to return Tuesday.

The masquerade given by Malo Camp, 7076, M. W. of A. at Smith's hall Saturday evening, was well attended, there being over one hundred people present, the greater part of whom were masked. The following representations were in evidence: Liberty, Columbia Stars and Stripes, Queen of Hearts, Topsy, Porter, poverty, lumberjacks, and Squaws, besides various other costumes. Prizes were awarded to Miss Sybil Smith, best dressed lady, representing Liberty; Ed. Babcock, best dressed gentleman, representing a porter, and second prizes to Miss Gladys Mieshe and Charlie Munson as Topsy and poverty. An oyster supper was served and enjoyed by all.

Keep Ham Moist.
Boiled ham is a most useful and popular dish, but it is inclined to get hard and dry when stored. To prevent this, spread over the cut portion with a thin layer of butter, then with a layer of flour paste and the ham will keep beautifully moist.

Daily Thought.
Under all speech that is good for anything there lies a silence that is better.—Scott.

Edward Miller, who is connected with the great jewelry house of the Tiffanyes and manages for them a branch house in Moscow. Mr. Miller left Moscow about the first of November and his statement concerning the results that were then visible from the closing of the vodka shops and why they were closed is extremely interesting. He says: "I am a hard-headed business man, but never have I imagined such a sudden social regeneration of a people as I saw in Russia following the closing of the vodka shops. Not only did productivity in my own shops increase incredibly, but the whole appearance of the peasantry changed from looking like a people who never had a square meal, they came to look like a people fed, nourished, and masters of themselves. Bank deposits increased enormously, over \$11,500,000 more being deposited in the banks this September than in the previous September. Crime and fires decreased incredibly. 'My job is gone,' said the police commissioner of Moscow; 'there is nothing doing; occasionally a murder, but what was threatening the very life of a changel'."

"But do not imagine," says Mr. Miller, "that the government did long time there has been in the village a strong national prohibition movement, the people being outraged that the government was collecting money out of their degradation when the war came, and it was decided to close the vodka shops for the moment, with a view to mobilization of the peasants. 'Now is the time to ask for permanent prohibition, for the government, wanting soldiers, not revolutionists, will not dare refuse.' The government did not dare refuse, and as it owned the supply prohibition did prohibit and the world had a chance to see the economic burden that falls from a people with the passing of alcohol."

From Congressmen in the House of Representatives to the confirmed alcoholic leaning against the bar of the saloon, the advocates of the liquor traffic will continue to vociferously assert that prohibition's prohibitive qualities are practically nil and that to enact a prohibition law is to help increase the consumption of alcoholic liquors.

We know of no better or more satisfactory way to silence individuals who make such statements than to remind them that the report of the commissioner of internal revenue for the fiscal year ending June 30, 1914, shows a decreased production in distilled liquor of 10,000,000 gallons as compared with 1913, and a decreased consumption for the year of 4,000,000 gallons. These figures do not show the actual decrease in consumption as the term "consumption" is used to cover all liquor taken from bonded warehouses it does not follow it has been consumed, as liquor cannot be in bond for a longer period than eight years.

During the past year there have been 127 fewer distilleries in operation in United States than in past years, and a decrease in the last twelve months of thirty-three in the number of breweries operated.

HEALTH
Cancer is Curable
When educators organized for an attack on preventable disease they chose, in tuberculosis, the greatest single cause of death, and one which finds the vast majority of its victims in early adult life. The next great attack was made on the preventable causes of death in infancy. Most encouraging progress has been made in both of these campaigns. As a result, the great reduction in the number of preventable deaths and the great increase in the average length of life have been secured in early life. Encouraged by what has been accomplished in the foregoing campaigns, a national movement has now been started against cancer. This effort will receive the hearty cooperation and assistance of this Bureau.

In engaging cancer battle is being offered to what is, perhaps, the most serious and difficult health problem of later adult life. Nevertheless, there are splendid opportunities offered for cutting down tremendous amount of preventable suffering and greatly decreasing the number of premature deaths from this cause.

By acquiring a little fundamental knowledge about cancer one can lessen to a great extent his own chances of acquiring the disease in a fatal form. Know that the disease is easily cured if recognized early and promptly and efficiently treated. Cancer usually, at first localized and is almost invariably painless. Many cases arise in moles, warts, as little horny growth on the lips, tongue, etc. An unnatural, slowly growing lump in any location, and particularly in the breast, is a signal for a prompt visit to a thoroughly competent and reliable physician or surgeon. The latter should be consulted at once concerning any unnatural bleeding, especially in middle life, or later.

In no instance is there any warrant for becoming panicky. A suspicious sign will not become a cancer simply, because a patient visits a physician. On the other hand if it is cancer ignoring the signs will not drive it away, but will waste the time, in which a beginning cancer is absolutely and easily curable.

Neglected, long existing cancers are practically incurable. Obviously, the common sense course is to learn the truth from reliable and experienced counselors. Then, just as a passenger in a boat must entrust his life to the pilot, so should the patient trust the physician and surgeon to see him through the troubled waters. Rocking the boat, or jumping into the current to grasp a straw in the shape of a deceptive "cancer cure", is silly and almost certain to be suicidal.

STATE SPUD MEN FOR GOOD STOCK

A season of comparatively low prices has not discouraged Wisconsin potato growers. They are determined to grow more and better potatoes next year, the year after, and thereafter.

This week they have started a campaign, not only to acquaint the residents of the state with the excellence of their product, but also with ways and means of still further improving their tuber crop and increasing the profits from potato growing.

They have installed in Madison an exhibit of healthy, certified potatoes which has been gathered from the potato districts of the state and which suitably represent the quality of the 1914 crop. This demonstration of what Wisconsin is doing for potatoes and what potatoes are doing for Wisconsin was installed by the Wisconsin Potato Growers' Association and is part of the exhibit recently presented at the Grand Rapids convention.

To show how potatoes may be kept in the best of health and what are the advantages of producing certified stock is the two-fold object of this exhibit. More than 50 of Wisconsin's leading potato growers will have their potatoes certified this year. These certifications of inspection are issued under the direction of the officials of the Horticultural department of the Agricultural Experiment Station.

Some of the potato diseases which Wisconsin farmers are asked to fight and keep out of the state are common scab, black scurf, leaf curl, and black leg.

The bulk of the late potatoes grown in this state are of two important varieties, Green Mountain and the Rural New Yorker. J. W. Hicks, president of the association, who with G. Milward, the secretary, is in charge of the exhibit, estimates that the Rural New Yorker is masquerading on Wisconsin farms under at least 40 different names. Fully ninety per cent of the work of standardization is being done with the two varieties mentioned.

Saturday is the great shoe day at the Jacobson Dry Goods Co.

ANTIGO COUPLE GETS IN WRONG

The large amount of mail matter received and dispatched from their home on the outskirts of Antigo, together with other evidence that all might not be as it should, resulted in the arrest on Saturday by federal authorities of William Collins and his wife Mabel.

A large collection of obscene photographs, alleged to have been sent through the mails, are in the hands of United States Attorney Goff. The couple is being held to await the action of the grand jury which meets this week.

CONTRACTORS BUSY

The various contractors on the W. & N. construction work between here and Van Ostrand are busy building camps and hauling supplies for the summer. There is an immense amount of this preliminary work to do. A steam shovel has been unloaded by Mr. Nelson at Van Ostrand and two are on their way here from Minneapolis to work on this end of the line. F. J. Anderson, Peter Nelson's foreman, arrived here yesterday. Higgins & McDonald of Minneapolis have taken an additional two miles of grading, making them seven miles in all—Cranston Republican.

No matter what your needs in the dry goods line may be, you will do much better by buying it from the Jacobson Dry Goods Co.

SAYS RED CROSS IS PRO-GERMAN

Former Antigo Doctor Makes Charges In Address In Canada

Len Brown, a former Antigo boy now traveling under the name of Dr. Brown-Landöche, of Paris, started something in Canada last week when he gave an address in Toronto, in which he charged the Red Cross organization with being pro-German. Brown spent his boyhood in Antigo and attended the high school, being a member of the class of '76.

With reference to the charges he makes the Toronto Globe say: "Dr. Brown-Landöche is here primarily to make an appeal for the hospitals of northern France, where the most appalling conditions prevail at the present time, but being an American by birth and having been in the United States during the past few weeks, his story to The Globe last night concerned mainly the intense activity of pro-German sentiment in his native country.

"In short, according to Dr. Brown-Landöche, the Red Cross organization in the United States is nothing more nor less than a pro-German agency. Although given the nominal connection with the United States through the name of President Woodrow Wilson as Honorary President of the organization, the Red Cross Society has for its President, Jacob Schiff, a German Jewish banker, and on account of certain revelations in connection with the sailing of the Red Cross ship from America last fall it has been identified as strongly sympathetic with the German people."

WISCONSIN ALIENS CAN VOTE

Because the legislative record regarding the adoption of a proposed amendment to the state constitution prescribing foreigners who have taken on out first papers but not attained full citizenship from voting was incomplete the state Supreme court has recently held invalid such an amendment which was ratified by the voters two years ago. The effect of the decision is to empower all foreigners who have taken out their first papers and declared their intention to become citizens to vote in view of the large foreign population in Wisconsin the decision is regarded as highly important.

HOW TO SUCCEED

During the last few years, conditions in all lines of business, even professional life, have changed so completely that every man is waking up to the fact that in order to win success he must specialize and learn to do some one thing and do it well.

So it is with any article that is sold to the people. It must have genuine merit or no amount of advertising will maintain the demand for the article.

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great Kidney, Liver and Bladder Remedy. From the very beginning the proprietors had so much confidence in it that they invited every one to test it.

It is a physician's prescription. They have on file thousands of unsolicited letters received from former sufferers who claim they are now enjoying good health as a result of its use.

However, if you wish first to try a sample bottle, address Dr. Kilmer & Co., Binghamton, N. Y., enclose ten cents and mention this paper. They will promptly forward you a sample bottle by Parcel Post.

Regular sizes for sale at all druggists—fifty-cents and one-dollar.

A Sure Way to Kill Noxious Weeds.

HERE ARE SOME REAL FACTS ABOUT WEEDS.

The experiment station at Madison once gathered data from 245 farmers about weeds. A. L. Stone, state seed inspector, submitted the questions and the answers averaged up this way:

What per cent of pasture is spoiled by weeds? Fifty per cent.

What methods of eradication used? Burning, digging, pulling and salting. Of the total, 103 were successful, 69 partially and 29 not successful.

What was the cost of killing weeds? Total for the 245 farmers, \$5,470, with an average of \$33.

Amount of taxes paid annually? Total of farms, \$10,684, or an average of \$43.05. Had the cost of cultivation necessary to keep down weeds in corn been considered the "weed tax" would have equaled or exceeded the oft complained of property tax.

The summer fallow method and the crop rotation method for the eradication of Wisconsin's noxious weeds, such as the quack grass and Canada thistle, are probably the ones which will in time work out most advantageously to all concerned, provided the systems outlined by A. L. Stone of the College of Agriculture are given a thorough trial.

Here are Mr. Stone's recommendations for the summer fallow:

Plow the field as soon as possible after removal of crop, and weather conditions considered. By careful cul-

tivation prevent all weed growth up to the time of freeing. Plow in spring as early as conditions will allow and once every four weeks during the season. Cultivate often enough to prevent all leaf growth above the surface, as in this way the underground feeder roots of perennial plants will be gradually killed out through exhaustion. Depth of plowing will depend upon position of roots, which should be turned to the surface where sun and wind will finish the work.

In the crop rotation method the following scheme has been tried with good results: Have the field in corn the preceding year kept clean by close cultivation and preceded by an application of manure. Plow as soon as the corn can be removed. Cultivate until freeing time. Work thoroughly in the spring and sow oats at rate of one and one-half bushels to the acre. A grain seed mixture composed of the following ingredients should be sown with grass seed at same time: Red clover eight pounds; timothy, six pounds; Kentucky blue grass, six pounds; making 10 pounds of seed in all to the acre. Two crops of clover should be secured the next year. The third year a crop of timothy. The fourth year, field of thick sod may be pastured. If tame grasses seem to be choking out the weeds pasture may be continued two years longer. Otherwise, apply manure, plow deeply enough to turn weed roots to surface and repeat the rotation again, beginning with the cultivated crop.

For small areas scattered here and there about the farm, smothering with tar paper or other material, or applications of salt brine or gasoline should be practiced. Weed eradication and the purchase of pure seed go hand in hand, and neither should be neglected in any system of farming.
